## Summary

Hello and Thank you for reading a little bit about me,

I'm a freelance Front-end React Developer originally from Czech Republic, but working remote in EU countries with my current location in Lisbon, Portugal.

I started my developer journey in 2020 when I learned the basics of programming and created my first web application from scratch with the help of Green Fox Academy and their 3 week course. Their structure helped me to get familiar with HTML, CSS, JavaScript, Git and GitHub.

After that I studied multiple courses about modern JavaScript (ES6+), HTML/CSS Flexbox, and CSS Grid on Udemy and YouTube.

In 2021 I joined an intensive full-time web development course in Lisbon at Wild Code School and completed 700 hours. I participated in building multiple projects in teams using latest technologies with primary focus on Front-end Development, however I'm familiar with Node.js, Express.js, MySQL and REST API.

Throughout studies at Wild Code School I took part in three months remote internship at IDUN technologies and together with my classmates we built a prototype for testing brain activities.

Front-end: JavaScript | React | TypeScript | HTML | CSS | Tailwind | Material-ui

Back-end: Node.js | Express.js | MySQL | REST API

other: Git | GitHub | GitLab | VS Code

## Experience

### React Developer

Boost.space

Apr 2022 - Present (3 months +)

### React Developer Internship

IDUN Technologies

Dec 2021 - Feb 2022 (3 months)

- As a team of five developers we worked on full-stack application front-end and back-end.
- Technologies used: JavaScript, React.js, JSX, Node.js, Express.js, CSS, NPM packages (Formik, Yup, Joi )
- We were applying Scrum methodology, Sprints and User stories.
- Our progress was regularly discussed with our Client.

### Technical Support Advisor

Teleperformance

Aug 2020 - Dec 2020 (5 months)
